

KHUSHI RATHI

Senior Software Engineer | khushi11b14052@gmail.com |

SUMMARY

Software Engineer with 2+ years of experience at Fiserv, specializing in designing, developing, and maintaining scalable and high-performance applications. Proficient in modern programming languages and frameworks, with a strong understanding of software development life cycle (SDLC), API integration, and system optimization. Demonstrated ability to collaborate with cross-functional teams to deliver reliable and efficient solutions in fast-paced environments. Passionate about writing clean code, solving complex problems, and continuously learning new technologies to drive innovation.

EXPERIENCE

Software Engineer, Fiserv (June 2023 – Present)

Khushi Rathie is working as a Software Engineer at Fiserv with over 2 years of experience in developing and maintaining scalable applications. She contributes to building backend services and RESTful APIs, while collaborating with cross-functional teams to deliver efficient software solutions. She is involved in the full Software Development Life Cycle (SDLC), including development, testing, and deployment, and focuses on writing clean, maintainable code. She also works on optimizing performance and resolving issues to ensure smooth application functionality in an Agile environment.

SKILLS

Skills: Java, C#, JavaScript, Spring Boot, .NET Core, RESTful APIs, HTML, CSS, React, MySQL, SQL Server, Git, Docker, Postman, Data Structures & Algorithms, OOP, SDLC, Agile/Scrum, Problem Solving, Debugging

PROJECTS

1. AI-Powered Resume Builder: Developed a web-based application that generates professional resumes using AI by analyzing user input and suggesting optimized content, with implementation of RESTful APIs, AI integration for content enhancement, and a responsive UI using technologies like Java/.NET, React, and SQL.

2. Online Banking System: Built a secure banking application enabling fund transfers, balance checks, and account management, with features like authentication, authorization, and optimized database operations, focusing on performance, scalability, and reliability.

CERTIFICATIONS & LANGUAGES

Programming in Java – NPTEL, Data Structures & Algorithms – Coursera, Introduction to Cloud Computing – Coursera, Agile Scrum Fundamentals – Udemy, Git & GitHub Essentials – Udemy
